

ASTIK GUPTA

Orai, Uttar Pradesh, India | +91 6387701460 | guptastik123@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, Responsive Design, REST APIs

Backend: Node.js, Express.js, Socket.IO, JWT Authentication, Redis

Databases & Tools: MongoDB, SQL, Git, GitHub, Postman, Figma, VS Code

Data & Analytics: NumPy, Pandas, Matplotlib, Microsoft Excel, Tableau, Power BI

Core Concepts: Data Structures & Algorithms (300+ problems solved)

EXPERIENCE

Summer Intern | GeeksforGeeks

Summer 2024

- Solved real-world coding problems and built optimized solutions, focusing on performance and scalability.
- Worked on debugging, improving existing code, and implementing efficient logic for various problem statements.
- Strengthened practical development skills by applying core programming concepts in hands-on tasks.

PROJECTS

DevSync AI — AI-Powered Collaborative Code Assistant |

Oct 2025 – Dec 2025

- Built a full-stack real-time collaborative coding platform where multiple developers can code together simultaneously, powered by Google Gemini API for intelligent code suggestions.
- Secured the application with JWT authentication and Redis-backed sessions; enabled live multi-user collaboration and instant messaging using Socket.IO.
- Built a browser-based code editor with live execution and no setup.

Tech Stack: React, Node.js, Express.js, MongoDB, Redis, Socket.IO, Google Gemini API, JWT

GitHub: github.com/astikgupta/devsync-ai | **Link:** devsync-ai-6wki.vercel.app

AI-Based Plant Disease Detection & Severity Analysis |

Nov 2025 – Mar 2026

- Trained a MobileNetV2 deep learning model on PlantVillage dataset (~94% accuracy) and integrated it into a real-time disease detection system.
- Implemented image preprocessing and OpenCV-based segmentation to detect infected regions and calculate severity (Mild, Moderate, Severe) using pixel analysis.
- Built an interactive Streamlit dashboard with image upload, prediction, severity visualization, treatment recommendations, and full pipeline integration.

Tech Stack: Python, PyTorch, OpenCV, Streamlit, NumPy, Pandas

GitHub: github.com/astikgupta/leaf-disease-framework | **Link:** leaf-disease-by-astik.streamlit.app/

Grocery Delivery Platform |

Dec 2024 – Feb 2025

- Developed a MERN-based grocery delivery platform with product browsing, order management, and role-based access control.
- Designed a responsive, mobile-friendly UI and integrated RESTful APIs for full CRUD operations on users, orders, and profiles.
- Developed an admin panel for product and inventory management, enabling full control over listings and order processing.

Tech Stack: React, Node.js, Express.js, MongoDB, JavaScript, REST APIs

CERTIFICATIONS

Data Analysis with Power BI | Coursera

- Covered data cleaning, modeling, DAX basics, and interactive dashboard creation for data-driven decision-making.

Become a Full-Stack Web Developer | LinkedIn Learning

- Learned to build responsive web applications, work with databases, and understand full-stack architecture.

Data Visualization in Excel | Coursera

- Created interactive data visualizations in Microsoft Excel using charts, pivot tables, and dashboards to derive actionable insights.

EDUCATION

B.Tech in Computer Science and Engineering | Lovely Professional University

2022 – 2026

CGPA: 7.05

Class XII (Science) | Shri Vinayak Academy International School

2021 – 2022

Percentage: 81.6%
